COVID-19 confirmed cases among tested by date (as of 31.5.2020)

## Timeline of Preparedness and Response to COVID-19 in Myanmar (as of 1.6.2020)

## Summary of new confirmed cases detection after first two cases (as of 31.5.2020)

- Confirmed cases were detected as peak in the 4th week after first confirmed cases due to religious event cluster .
- Confirmed cases were decreased but still raised than the first 3 weeks due to religious event cluster and workplace cluster.
- There were an increased in numbers of cases in the 7th week after the first two cases due to household cluster linked with religious cluster.
- Confirmed cases were detected by nearly two fold rise in the 9th and 10th weeks after first two cases because of returnees coming back by relief flights.
