### Definition of the term “Contact Person”

(as of 7-4-2020) (Reference – *European Center for Disease Prevention and Control*)

- ⇒ A contact of a COVID-19 case is any person who had contact with a COVID-19 case within a timeframe ranging from 48 hours before the onset of symptoms of the case to 14 days after the onset of symptoms.
- ⇒ If the case had no symptoms, a contact person is defined as someone who had contact with the case within a timeframe ranging from 48 hours before the sample which led to confirmation was taken to 14 days after the sample was taken.

### Classification of contact based on level of exposure
