

Making a difference; Student Centered Medical Education in Myanmar Medical Universities

Knowledge Sharing

1

Contents

2

- Sydney medical program
- Student selection
- Learning teaching
- Student support
- Learning environment
- QA

Introduction

3

- **Title of the Training –**
Making a difference; Student-centered Medical Education in Myanmar
- **Place of Training –**
 - *Sydney Medical University, Australia
 - *RPA hospital (observing clinical skill training)
 - *Charles Perkins Centre (Attending TBL sessions, small group learning sessions, X lab)
 - *Royal North Shore Hospital (observation of OSCE, Clinical Skill training)
- **AAF 17 fellows**
15 senior faculty members from 4 medical universities

Opening Ceremony

4

Host institutions

5

Sydney medical university is

- **number one in Australia and**
- **17th Worldwide in Medicine category of the 2016 QS World University Ranking**
- **35th in the clinical, preclinical and health category of the Times Higher Education World University Ranking 2016-2017.**

Main Discussion Points in the training

6

1. Overview of the **Sydney Medical Program** including graduates outcomes, curriculum development and integrating basic and clinical sciences
2. Selection and admission
3. **Curriculum development** as a whole group project
4. **Curriculum mapping**, Curriculum Planning
5. Theory and practice of **team based learning** and getting experience by attending TBL sessions of Year 1 student

Main Discussion Points in the training

7

6. Online learning of basic science, teaching of basic science, writing of TBLs
7. Anatomy and histology pedagogy and practice
8. Clinical teaching at central clinical school, Procedural skill
9. Clinical studies and teaching
10. Observation and discussion at Sydney clinical skills and simulation centre
11. Principles of programmatic assessment
12. Assessment item banking, writing assessment item types
13. Design and implementation of OSCEs
14. e-learning design and platforms

Main Discussion Points in the training

8

15. Ethics and professionalism within SMP, Role modeling in medical education
16. How to teach communication skills to students
17. Principles of learning portfolio
18. Student support, health and well being
19. Faculty development and administration staff development
20. Standards, accreditation and quality
21. Collaboration of research in medical education
22. IPE

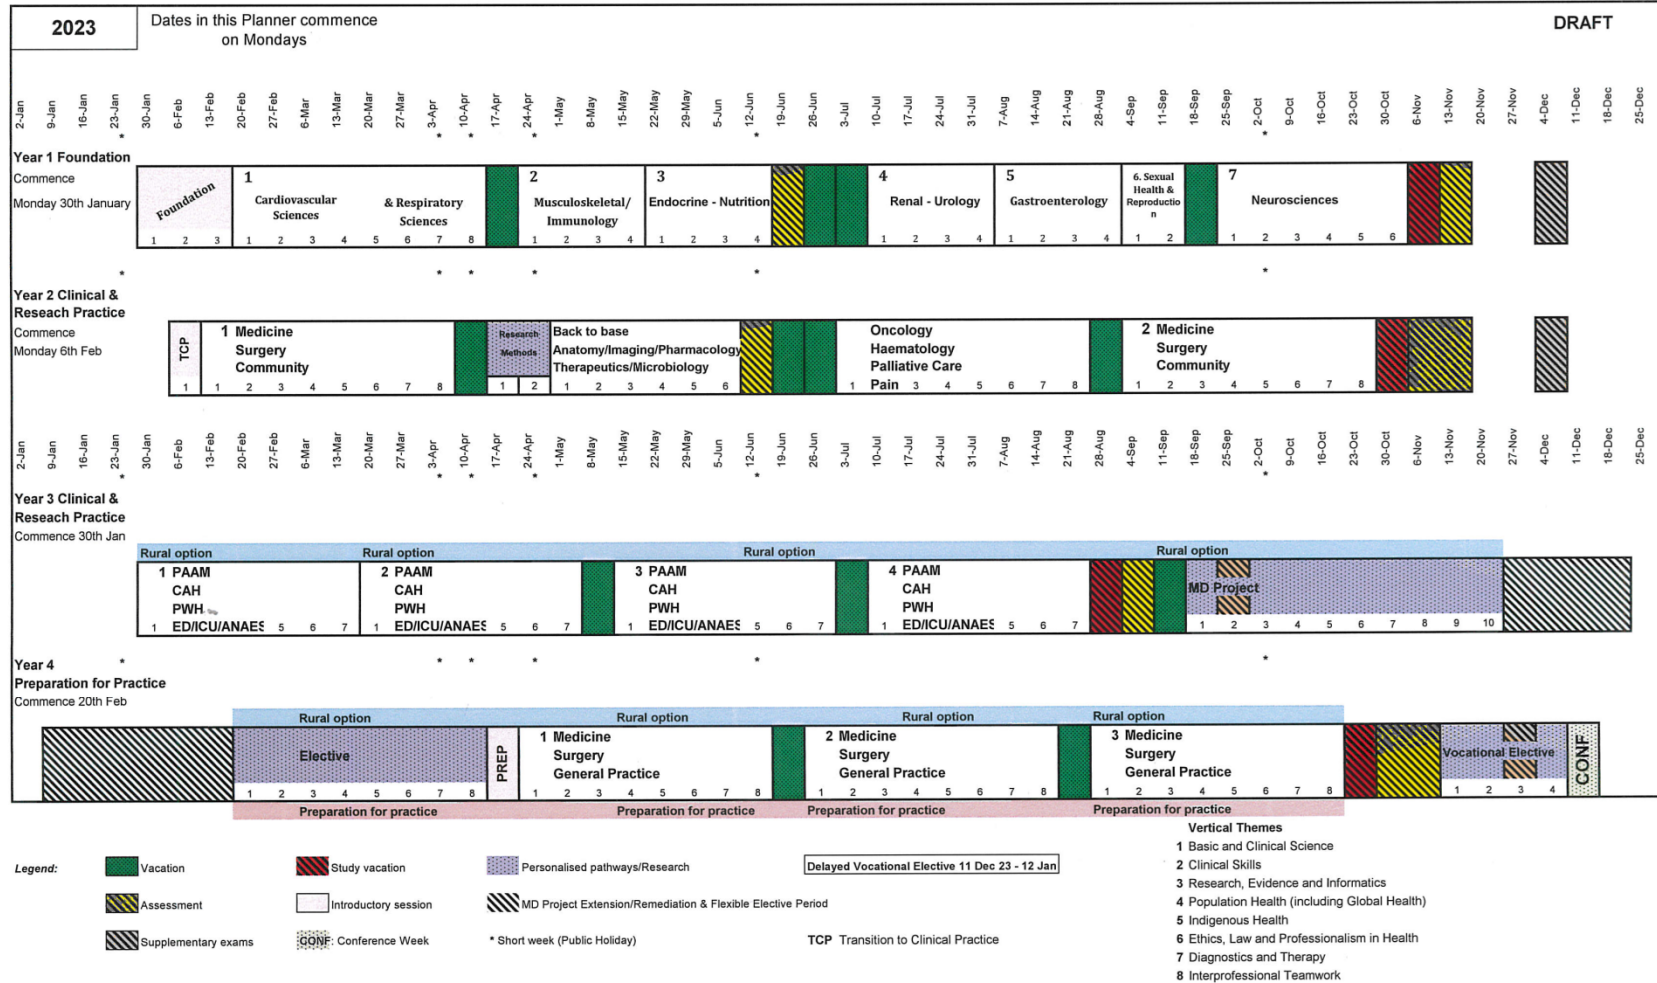

Sydney Medical Program

9

- **Entry –postgraduate Course**
(Undergraduate degree – biological science, arts and science, law, political science)
- **Duration – 4 years**
- **Degree - MD**
- **2 years in campus (stage 1 and 2)**
- **2 years in clinical schools (stage 3)**
- **Internship after graduation**

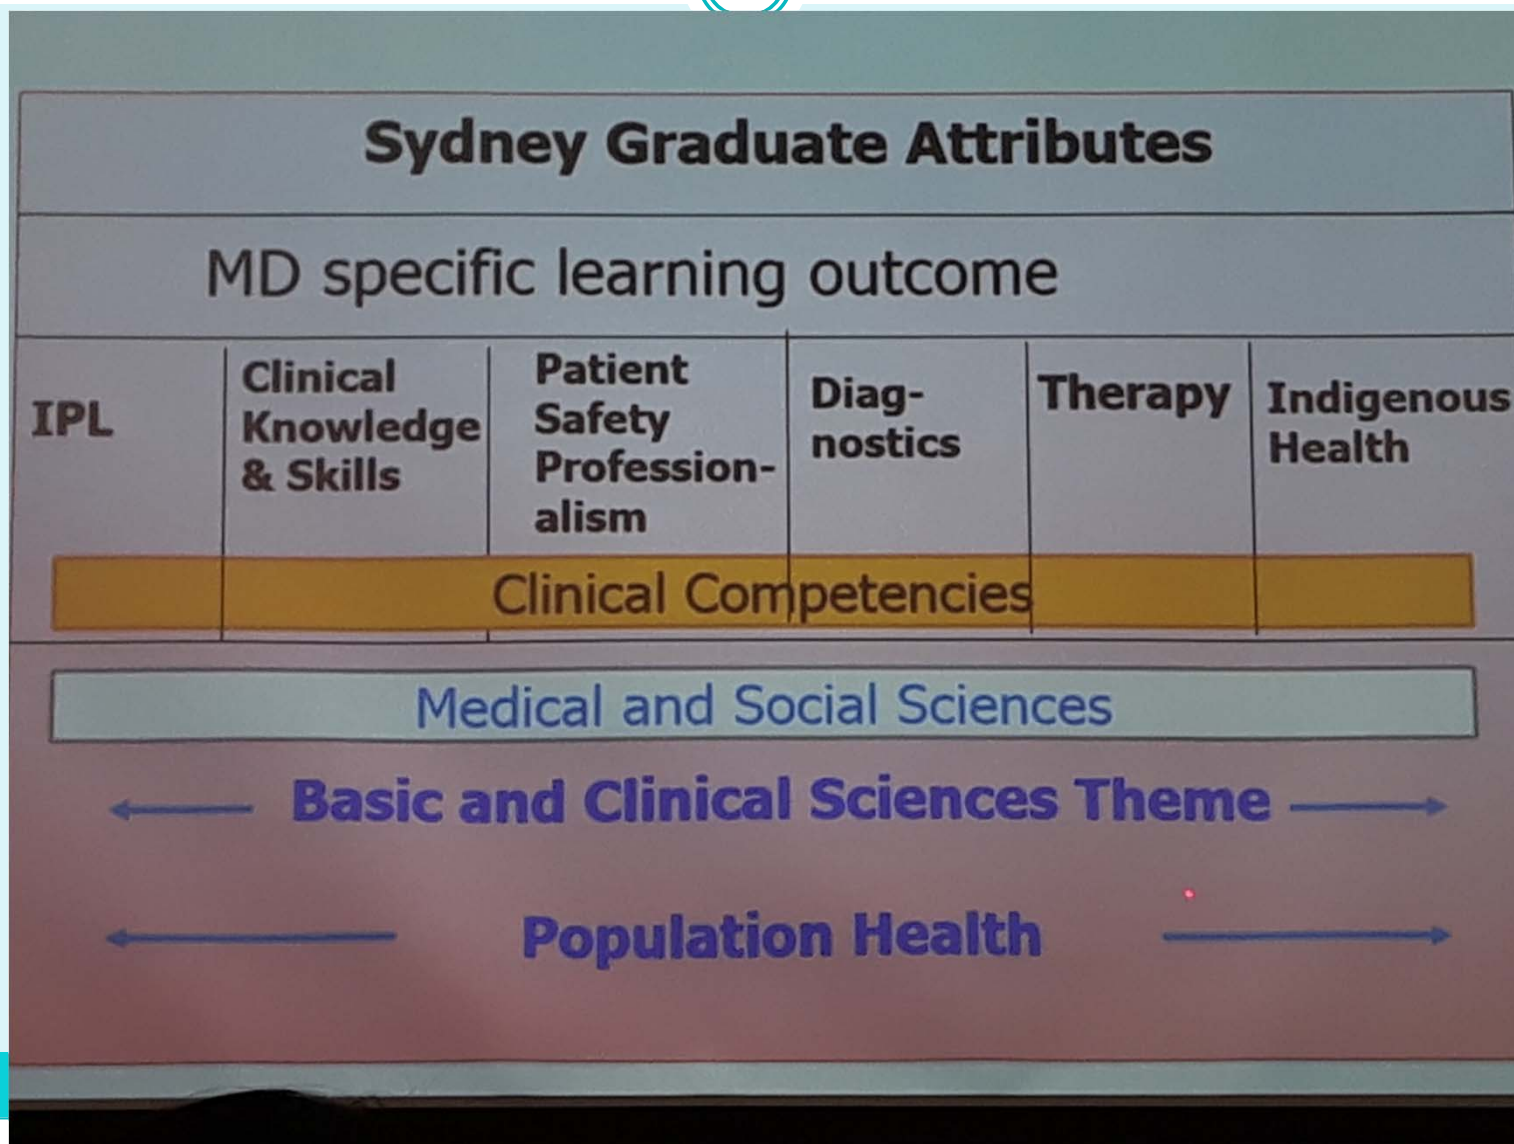

Planning for year 2023

Last updated: 21 July 2017

Sydney Medical Education Program

11

Graduate outcomes

12

- **Basic and clinical sciences**- provides the scientific foundation for medical studies (covering anatomy, physiology, pharmacology, histology, pathology)
- **Patient and doctor** –sessions cover clinical knowledge and skills, clinical reasoning, clinical communication and patient safety. (bedside teaching)
- **Population Medicine** – includes the epidemiology and the delivery of health care, through the knowledge and understanding of different health systems and the role of the doctor within them
- **Personal and professional development**- covers aspects of personal development and professionalism, the law relevant to medical practice, ethics, medical humanities and patient safety. PPD transform a student to a healthcare professional with responsibilities to self, colleagues and the patients

Early Clinical Exposure

13

- from the beginning of year 1, spend 1 day each week in clinical schools.
- Learn how to take history from a patient and perform clinical examination.
- Year 3 and 4 based in clinical schools.

Research training

14

- **gain formal training in year 1 encompassing**
 - the basic principles of health and medical research,
 - research governance and ethics and
 - the basics of research methods in biomedical, clinical and public health.

- **Student have to conduct a research project as part of the course, gaining experience in**
 - project organization and management,
 - data analysis,
 - oral presentation skills and
 - scientific writing

Admission requirement

15

- Domestic and international applicants need to have a bachelor degree with a minimum **credit average** (6.5 or better)
- domestic applicant need to have competitive score in **GAMSAT**(Graduate Australian Medical School Admission Test) (**50%**)
- International applicants can submit **GAMSET** or **MCAT** (Medical College Admission Test) results
- **Multimini-interview** (situation judgment test) (**50 %**)

Entry

16

- No of student 300 students
 - ❖ 220 domestic
 - ❖ 70 international
 - ❖ 10 reserved for outstanding students in matriculation
- Age of commencing – 24 years

Learning/Teaching

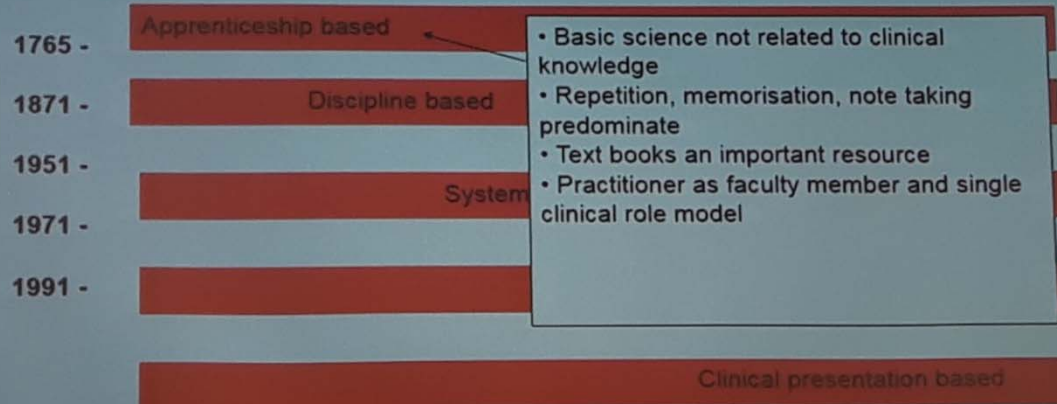

17

- After 20 years experience with **PBL**
- now in the **transitional period to change to TBL**
- because former curriculum is not ready to do clinical works.
- Cases are written around **120 core clinical problems.**
- Year 1 students are training with team based learning.
- Main learning teaching method use is small group learning with excellent, well equipped learning environment.

Changing trends

18

Generic medical education curricular models

Papa, F. J., Harasvm, P.H. *Medical curriculum reform in North America, 1765 to the present: a cognitive science perspective*. *Acad Med* 1999 Dec. 74(12) 1260

Changing trends 2

19

Generic medical education curricular models

1765 - Apprenticeship based

1871 - Discipline based

1951 - System based

1971 - Problem based

Clinical presentation based

- Clinical problems form context for learning
- Small group PBL employed to enhance attitudes toward learning
- Claimed that active learning enhances retention
- Repeated PBL will enhance students hypothetico-deductive reasoning

* Anatomy Prac 2hr; CPC Prac 1.5hr only - starting from 1pm
 * Space for a THIRD prac in rotation provided there is no venue clash
 * Prac classes to rotate throughout year to be fairer with late finishes

Stage 3 Streams

YEAR 3	Term A	Term B	Term C	Term D	Term E
Stream 1	CC	CR	MED(3)	PAAM	CAH
Stream 2	MED(3)	PAAM	SURG	CR	PWH
Stream 3	MED(3)	SURG	CR	PWH	PAAM
Stream 4	SURG	MED(3)	PAAM	EL	CR

YEAR 4	Term F	Term G	Term H	Term I	Term J
Stream 1	EL	MED(4)	PWH	SURG	PR
Stream 2	EL	CC	CAH	MED(4)	PR
Stream 3	EL	CAH	CC	MED(4)	PR
Stream 4	CAH	PWH	MED(4)	CC	PR

12 tips for Programmatic Assessment from Van der Vleuten *et al* (2015)

1. Develop a masterplan for assessment
2. Develop examination regulations that promote feedback orientation
3. Adopt a robust system for collecting information
4. Assure that every low-stakes assessment provides meaningful feedback for learning
5. Provide mentoring to learners
6. Ensure trustworthy decision-making
7. Organise intermediate decision-making assessments
8. Encourage and facilitate personalised remediation
9. Monitor and evaluate the learning effect of the programme and adapt
10. Use the assessment process information for curriculum evaluation
11. Promote continuous interaction between the stakeholders
12. Develop a strategy for implementation - with faculty development

Year 3 Barrier Score

- The Year 3 Barrier Score determines progression to Year 4
- Students sit 4 assessment modules with a total of 270 SBA questions
 - 75 questions for Medicine 3
 - 75 questions for your Core Block completed in Year 3
 - 60 questions for your Term B/C Specialty Block
 - 60 questions for your Term D Specialty Block
- The Total Barrier Score is calculated so that the core blocks represent 75% and specialty blocks 25% if modules are completed.

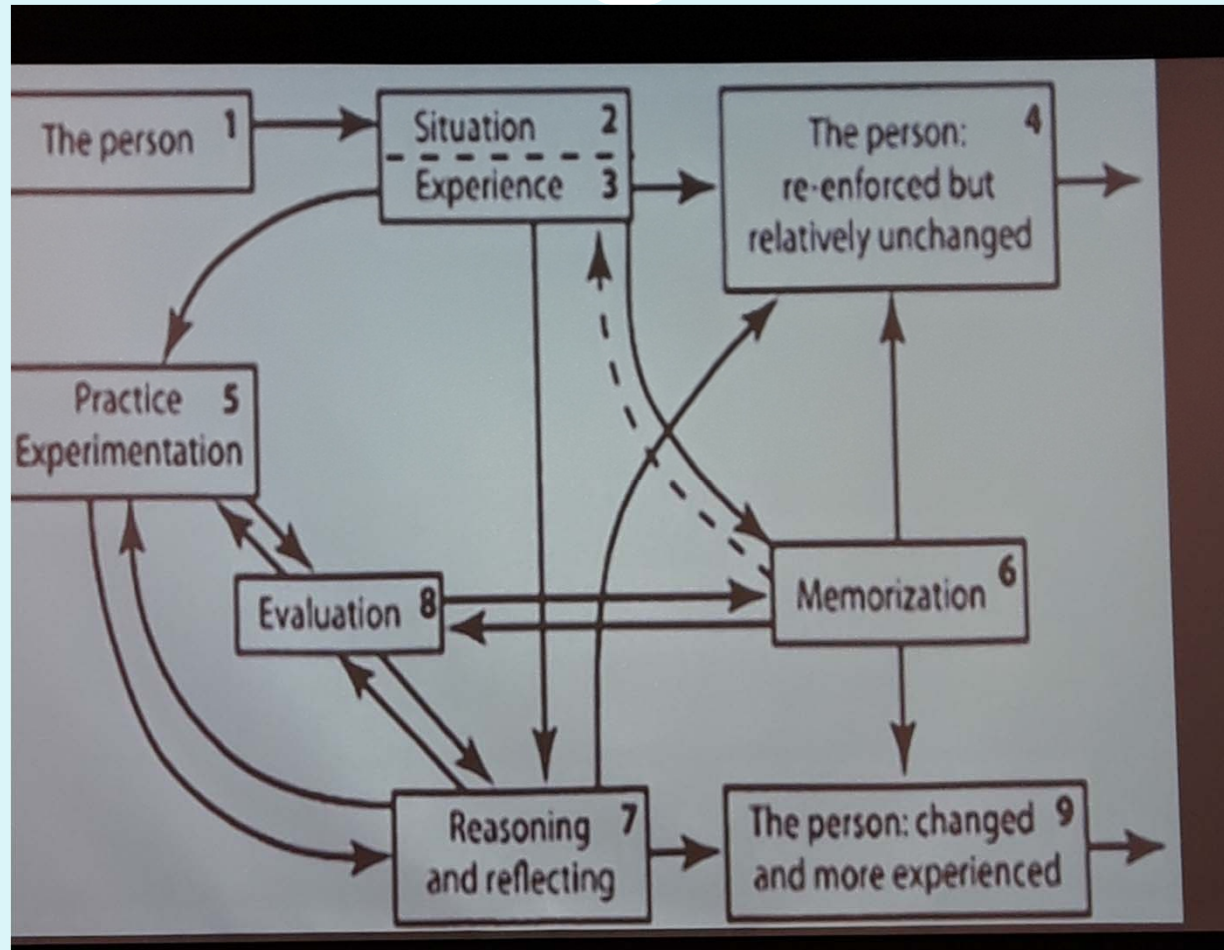

Exam Module	RAW SCORE	SCALE SCORE	% Weighting
Medicine 3	75	150	37.5%
Other Core	75	150	37.5%
Specialty 1	60	50	12.5%
Specialty 2	60	50	12.5%
TOTAL	270	400	100.0%

Programmatic assessment

31

Example of programmatic assessment in a specialty block

Summative Assessment Task	Task Requirements	Rubric - maximum possible mark	% of final in-term mark
1. Making Decisions in General Practice (MDGP) task	A TBL activity at the start of the term and an evidence-based report concerning a patient seen during the term submitted into Turnitin through Blackboard mid-term.	50	15
2. Assessing the Health of a Community (AHC)	Complete a population health profile for a community of your choice. Present your community profile at a workshop & participate in discussion panel	30	15
3. Supervisors assessment (Placement One)	GP Supervisor assessments 1 - Long case assessment - Global assessment	24 12	10 (5) (5)
4. Supervisors assessment (Placement Two)	GP Supervisor assessments - Short cases (x 2) - Global assessment	48 12	10 (2.5 + 2.5) (5)
5. PCAP clinical case presentation	Presentation of a clinical topic to a workshop & writing 2 multiple choice questions	40 (36 main assignment + 4 MCQ)	15
6. Written assessment: Part 1 & 2	SBA – 45 item written test CJT – 12 item on-line test	45 192	20 15
TOTAL			100

Anatomy Game

Quality Assurance and accreditation

56

Quality standards and accreditation

57

- **Why – dealing with human life**
- **What – AMC standards**
- **Process**
 1. **medical school has to do a report showing they're meeting the standards**
 2. **Accrediting committee come, look, make interviews**
 3. **decision**

Who involve in Accreditation committee?

58

AMC ask to norminate deans to involve in Acc team

Chair – dean of another U

Vice chair – dean of another U

Members – mix up of people who have enough knowledge in ME from

- ✦ clinical science
- ✦ Basic science
- ✦ Dean
- ✦ Leaders of ME
- ✦ Assessment expert

What to see?

59

1. The context of medical program
2. The outcomes of the medical curriculum
3. Learning teaching methods (good for student/ promote patient centered care)
4. Assessment of student learning (assessment throughout the program)
5. Implementation of curriculum (student, environment)
6. Curriculum monitoring and evaluation
7. Student – No, policy for disability, representation
8. Learning environment – library, IT, room, facilities, hospitals, lockers, places

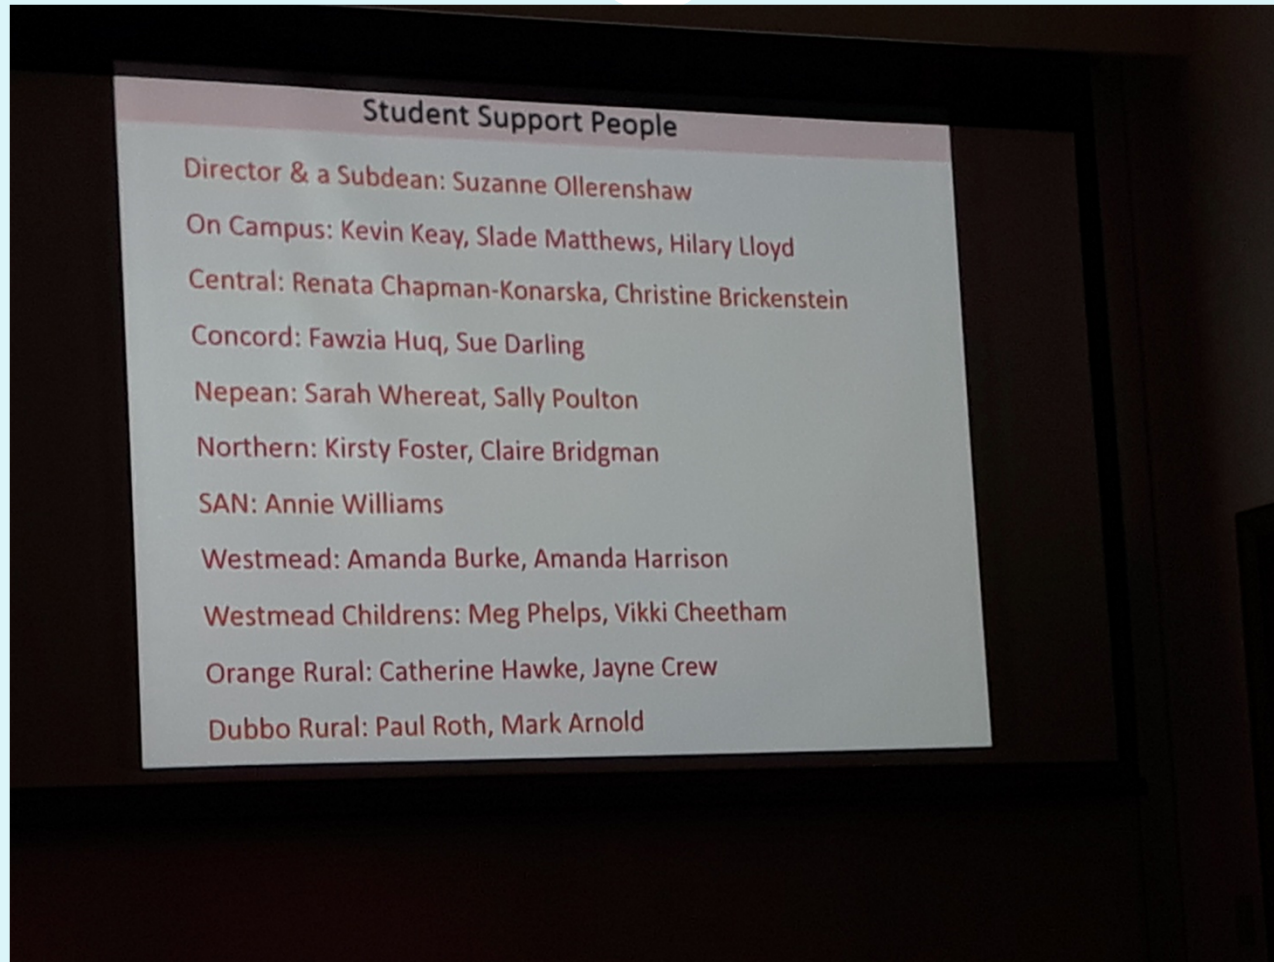

e-learning

60

- Learning management system is used
- Blackboard
- Each student has own password and access U website

Student support

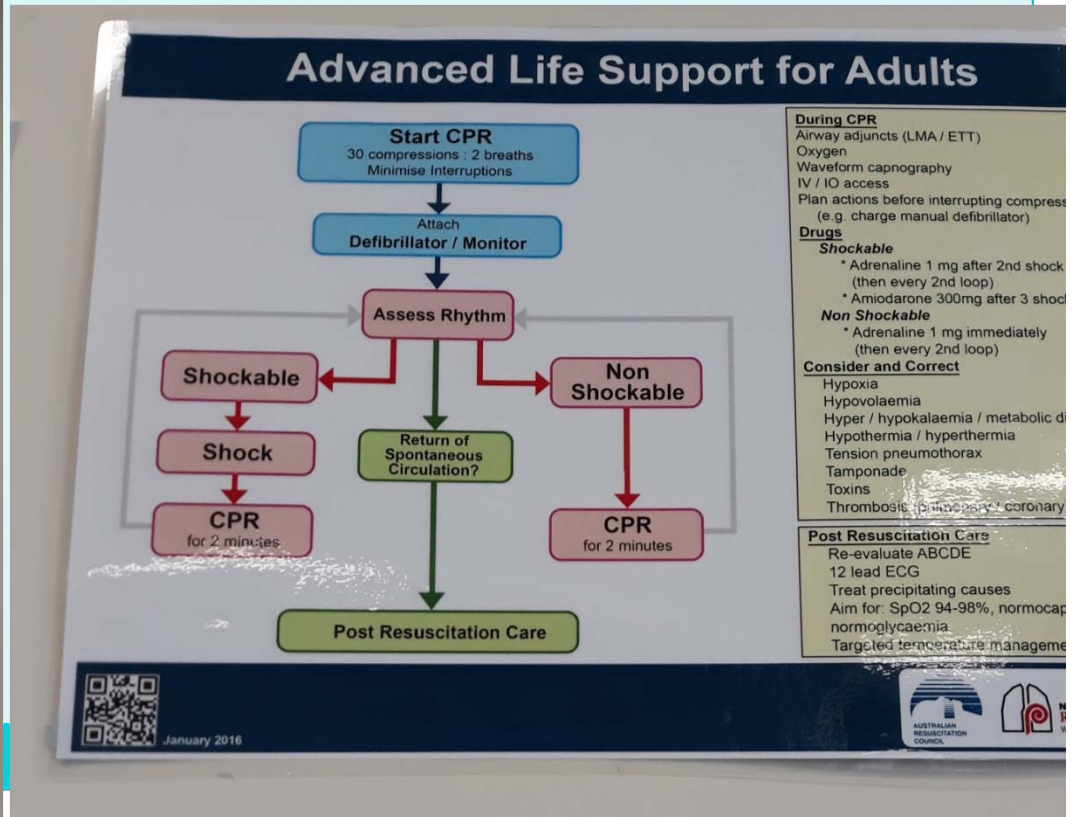

61

Reducing stress

62
